

JASHMIN JENA

BTM Colony, Ekkatali, Jharsuguda, Odisha – 768203

+91-7978819297 | jasminejena94@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Information Technology graduate with skills in web development, programming, and problem-solving. Passionate about learning new technologies and contributing to innovative projects.

ACADEMIC PROFILE

Aditya Institute of Technology and Management, JNTUGV

2026

B.Tech in Information Technology – 75%

Vizianagaram, India

TECHNICAL SKILLS

Programming: Python, HTML, CSS, JavaScript, React.js

Backend: FastAPI, React.js, Docker, Prisma

Database: MongoDB, SQL (Basics), PostgreSQL

Tools & Technologies: Data Analysis, Machine Learning Basics, Web Development (Django), Linux Basics, Data Annotation, AI Workflow Automation (Miranda)

Soft Skills: Communication, Problem-Solving, Team Collaboration

INTERNSHIP EXPERIENCE

Delta IoT

Software Development Intern

Hyderabad, India

- Worked on a real-time e-commerce website project, contributing to both backend and frontend development.
- Rapidly adapted to FastAPI, Linux basics, and software testing while contributing to AI-based projects.
- Performed data annotation work and built AI model workflows using the Miranda platform.

Community Impact Research Internship

Research Intern

Bhavanapadu Village, India

- Conducted field surveys and interviewed farmers, using clear communication to explain the study and gather insights.
- Analyzed findings and proposed improvements for digital adoption and reduced dependence on intermediaries.

MongoDB Global Certification Internship

Intern

Remote

- Gained hands-on experience with NoSQL databases, data modeling, query optimization, indexing, and the aggregation framework through training, projects, and real-world scenarios.

CERTIFICATIONS

- NPTEL – Python for Data Science (IIT Madras)
- NPTEL – Introduction to Machine Learning
- APSSDC – Data Analysis & Django Web Development
- Cisco – Python Fundamentals
- HackerRank – Python (Basic)
